At the Amsel fall branch, first head in the direction of Amsel fall |↖|, and after 500 m turn left in the direction of Schwedenlöcher. You'll now be heading up the hill, in parts on steps. The cliffs around you stand out with their numerous striking holes. After the rise head on to Bastei (↗🏰) and to the Bastei bridge

After having taken in the view, take a look at the historical Felsenburg cliff castle next door. It is then up the hill and back to Rathen |↖|.
